January 2015

Dear Charter School Applicant:

Thank you for your interest in replicating successful charter schools in Indianapolis.

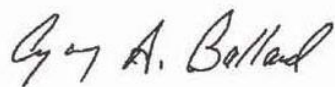

The charter school movement began in 1991 with the promise of offering new, high-quality public school options for children and families. The charter school design gives educators more flexibility and freedom from regulation in exchange for a high level of accountability. The sector has grown to almost 6,000 schools in over 40 states, including the District of Columbia, serving more than 1.5 million students.

Indiana serves as a key player in the national charter school movement. In May 2001, Governor Frank O'Bannon signed a law that enabled educators, parents and others across Indiana to create charter schools. Indiana's charter school legislation is designed to offer students, families and educators different and innovative choices in public education to reach and serve diverse populations of students. Public school reform advocates have heralded our charter legislation as a strong law that provides opportunities for real innovation and student achievement in our public school classrooms.

One of the unique advantages of Indiana's legislation is that the Mayor of Indianapolis is allowed to sponsor charter schools in Marion County. In response, my office has designed a comprehensive application review and monitoring process that holds applicants to high standards. In so doing, we have drawn from the experiences of successful charter school sponsors and the research of experts from across the country. Through this process, we closely scrutinize charter school proposals to ensure well thought-out plans, the highest academic standards, and accessibility to all children in Indiana. The selection criterion also leaves the door open for applicants proposing to try approaches that are new and highly likely to work with their target populations. To manage the selection process of the most qualified applicants, the City-County Council President and I appointed the Indianapolis Charter School Board, which consists of experienced local educators and community leaders.

We hope this year to receive applications from promising organizers offering compelling visions and thoughtful plans for improving the educational achievement and lives of a broad range of students. If you believe that you have a fully-developed charter school proposal that meets the highest standards of excellence for our children, we look forward to receiving your application. If you have any questions regarding the application process, please contact my Director of Charter Schools, Brandon Brown, at brandon.brown@indy.gov or 317.327.3621. We look forward to working with all members of our community to provide high-quality schools for students in Indianapolis.

Sincerely,

Gregory A. Ballard
Mayor
City of Indianapolis

Introduction

This packet is designed to help potential applicants navigate the charter school replication application process. The guidelines and timeline for the completion of all the steps of the application process are detailed. Applicants that should use this replication packet are current Mayor-sponsored charter schools replicating their exact model in a different location.

Indiana's charter schools law presents educators, parents and others with a tremendous opportunity to design new, and replicate successful public schools. With this opportunity, however, comes tremendous responsibility. In our efforts to create cutting-edge schools, we must ensure that charter schools welcome and serve all students.

The replication process designed by the Mayor's Office is intended to scrutinize proposed charter schools closely. The Mayor will only grant replication charters to those applicants who have proven their success in academics, operations, and management in a current Indianapolis-based charter school. Indiana does not have a cap on the number of charter schools that can be approved in any given year.

The Mayor's office, in conjunction with the Indianapolis Charter School Board, has gone to great lengths to create an open and transparent application review process based on the explicit criteria set forth in this application packet. However, other factors may also influence the Board's final decisions. These factors may include the composition of the current applicant pool relative to the charters already granted, as well as the diversity of the pool relative to such attributes as school size, geographic location, and educational approach.

The Mayor and City-County Council President have appointed a Board comprised of experienced educators and community leaders to review new and replication applications and make recommendations about approval. Information about the members of this Board can be found on our website at www.indy.gov/OEI.

Required background check (for new board members and school leaders), community partnership, assurances forms and an Educational Service Provider Questionnaire can be found immediately after the application guidelines. Links to the Mayor's Office preferred budget template can be found online [here](#).

If you need assistance, please contact the Office of Education Innovation's Director of Charter Schools, Brandon Brown, at 317.327.3621 or brandon.brown@indy.gov.

Application: Guidelines and Procedures

The Mayor's Office has established the replication application process described in this packet for the following purposes:

- To provide mechanisms for meaningful public input;
- To provide the Mayor, his staff, and the Indianapolis Charter School Board with assessments of applications from successful charter schools; and
- To provide a final staff recommendation and Board decision to approve or deny an application.

Applicants seeking a replication charter from the Mayor of Indianapolis must:

- Submit a Letter of Intent.
Note: Applicants may submit their letter of intent at least two weeks before the application deadline
- Submit a replication application.
- Participate in an Applicant Interview.
- Participate in all required Board meetings.

The Mayor's Office reserves the right to reject applications that do not follow the above procedure.

The Mayor's Office will conduct due diligence on the applicant's existing schools. The Mayor's Office will look for evidence of the existing school's success and the applicant's capacity to replicate the school model.

All applicants must submit a Replication Application. The following pages contain detailed instructions for completing the application review process. Applicants will find:

- Describe the school's policies and standards for promoting students to the next grade, or grouping level.
- Also, choose a grade and subject area to demonstrate how any additional standards meet or exceed Indiana’s standards.

D. Curriculum

- Provide a description of the curriculum that will be used by the school, including the objectives, content, and skills to be taught in the main subject areas at each grade level (or performance level, grade level, etc.) in your school.
- Explain how the curriculum is aligned with Indiana state standards.
- Provide two sample lessons (from two different grade levels) that demonstrate how the school’s educational model and mission play out in the classroom. In your sample lessons, indicate how the curriculum is aligned with Indiana standards and the school’s additional standards.
- Explain how limited English proficient learners, students with special needs, and students who enter the school below grade level will be engaged in and benefit from the curriculum.
- Identify the specific textbooks, teaching pedagogies, curricular programs and/or sequence that will comprise the schools’ curriculum for all subjects and grade levels.

E. Assessment

- Describe how student progress will be determined, measured and reported. As a starting point, charter schools in Indiana are subject to mandatory assessment and testing requirements applicable to all Indiana public schools. Please indicate whether, in addition to administering state-mandated standardized exams, the school will also use additional or multiple assessment tools to determine and report student progress.
- Explain why particular measures have been chosen, how baseline achievement data will be collected, in which subject or development areas such data will be collected, and which assessment tools will be used.
- The outline of the assessment approach should detail reporting mechanisms for assessment information and indicate which audiences will receive this information, as well as the frequency of reporting.
- The outline of the assessment approach should also describe how assessment information will be used to continuously improve instruction, student learning and individual development and how the school will engage students who are working at levels that are either (a) above or (b) below the school's performance standard.
- Provide the plan for disaggregating achievement data specific to all exceptionality areas and disproportionality.

H. Human Capital

- Indicate the number of teachers and other school staff to be hired. If necessary, describe the job position.
- Describe the qualifications and attributes of an ideal teacher for the proposed school and how these qualifications will support the mission and promote effective student learning.
- Provide a plan for ensuring that recruitment and selection procedures will reinforce these desired qualities in the school's faculty.
- Describe the school's process for attracting and retaining great human capital.
- Also describe plans for developing and implementing an effective professional development program.
- Detail how the staff evaluation system will support the school's mission and educational model.
- Indicate the compensation structure for teachers and staff and list the benefits that will be provided to them (including health insurance, retirement benefits, and liability insurance). Please be as specific as possible.
- Describe the school's plan for staffing special education, including the necessary qualifications of special education staff.

V. Additional Considerations

A. Goals

- Central to the accountability system is the *Performance Framework*, which defines the core areas for which schools are accountable. This framework will measure school performance by indicators common for all schools chartered by the Mayor's Office. In addition, the *Performance Framework* leaves a placeholder for measuring the attainment of educational and organizational goals unique to each school.

- The Mayor's Office expects charter schools to have a detailed understanding of the Performance Framework, hold themselves accountable to the framework, and be able to objectively reflect on their performance.
- After reviewing the Performance Framework, create four school-specific goals aligned to the school's mission (two academic, and two non-academic). These goals should not duplicate any measures already included in the Performance Framework.
- Using the format described in Appendix 3, summarize two important school-specific goals and associated measures in relation to each of the following two categories:
 - Academic performance; and
 - Organizational/non-academic outcomes.
- Appendix 3 contains the information you will need to complete this section, including the Performance Framework, a summary sheet for recording all school-specific goals and assessments, instructions for completing the template for each goal, a copy of the template itself, and an example of a completed template for a single performance indicator.
- **[Optional]** Explanation of how this particular school is innovative in developing school-specific goals. While the Office of Education Innovation holds all charter schools accountable to the Performance Framework, schools are required to develop school-specific goals in regards to educational performance and organizational viability. An innovative school may utilize this requirement as a way to distinguish itself from others in the area.

B. Community Partnerships

- Provide a list of organizations that will partner with your school and the nature of those partnerships.
- Attachments should include letters of support from partner organizations, detailing the specific services of the partnership.
- Describe the steps you have already taken to develop partnerships and your plans to further develop additional community partnerships.
- If any of the organizations partner with the current school, please provide concrete examples of how that partnership benefits the school community.
- Appendix 2 includes a template for listing community partnerships.

C. Transportation

- The intent of the Mayor's office is that schools receiving charters from the Mayor must be open and accessible to all students. Given that intention, provide a detailed description of the transportation arrangements made for charter school students, including arrangements made for students who would not have their own means of transportation.
- While it is understood that you may be unable to provide an exact transportation plan without knowledge of your actual student enrollment, please be as specific as possible.

D. Timeline

- Provide a clear and detailed timeline for getting the school into operation, from receipt of the charter to the opening of the school.
- In addition to the timeline, provide a detailed startup plan that includes staffing as well as the resources you will use to support the startup activities.

Appendix 1: Instructions for Leadership Information

If the Mayor's Office does not currently have the following information for school administrators and governing board members, then those individuals are required to complete the background check authorization form, provide a current resume detailing their qualifications and experiences, and submit a memorandum indicating any conflicts of interest. Submit all three items for each new leader. Information on governance and management team members will not be considered unless the Mayor's Office has complete leadership information (resume, background waiver, and memorandum) for every board member and school leader as detailed below. Below is a brief outline of the leadership information contents, as well as directions for meeting the format requirements.

Leadership Information Contents

The leadership information should contain the following:

- Resumes should include, at a minimum, education, employment and professional and community activities. Resumes do not need to include personal address or contact information.
- Signed background check authorizations only in unbound copy. Background check forms are not included in the bound copies. Background check authorization form is available in Appendix 2 (page 40).
- A memorandum of no more than one page from each participating governing board member that:
 - Highlights the knowledge and experience that he or she would bring to the board (e.g., previously served on a board of a school district, an independent school, or a non-profit corporation); and
 - Indicates any potential conflicts of interest he or she might have. A potential conflict consists of engaging in a business relationship with a company or employee that would provide direct or indirect financial or other benefits to the board member or family members. Please describe the individuals involved and the nature of any such relationship.

To the extent permitted by law, information obtained through background checks and other personal information will remain confidential. If the leadership of the proposed charter school changes, it is the responsibility of the organizer to submit updated leadership information (resume, background check authorization and memorandum) to the Mayor's Office.

Appendix 3: Instructions for Development of School-Specific Goals

This appendix provides a summary cover sheet and a general template that each applicant must use to submit its school-specific goals to the Mayor's Office. Schools should use the template to explain each of their school-specific goals (two academic, two non-academic). Please remember, school-specific goals should not be duplicative of any measures already evaluated in the Performance Framework (found on our website). This includes state standardized testing and accountability, attendance, enrollment, cash flow, etc.

This appendix contains, in the following order:

1. The summary cover sheet, which schools should use to summarize their school-specific goals and assessments and submit as a cover page for the more detailed goals information submitted on the template;
2. Instructions for completing the general template for school-specific goals;
3. The general template; and
4. A sample submission from a hypothetical charter school showing how the general template might be completed for one goal.

For more information and assistance developing these goals, see the Performance Framework available at our website.

Summary Sheet: School-Specific Goals and Assessments

On this sheet, summarize the performance goals and assessments that are detailed on the templates.

School Name: _____

Performance Goals Methods of Assessment

General Template for School-Specific Goals

- Submit each goal – and the requested information pertaining to that goal – on a separate template page (or pages). Reproduce the template page as needed for the number of goals that you wish to submit.
- Indicate the name of your school at the top of each page.
- Indicate your school’s mission statement in the designated space.
- Indicate the required information in the designated spaces in the template. You may expand the template to additional pages if needed to accommodate information pertaining to a particular goal.

Below are specific instructions for each designated space in the template:

1. **Mission Statement:** In this space, provide a brief (1-2 sentences), jargon-free statement of the school’s purpose and broad aims. This statement should be measurable, memorable, and meaningful.
2. **Goal:** In this space, articulate the school-specific goal in a precise, declarative statement.
3. **Annual Targets:** In this space, complete the chart showing the expected results for each year of the charter term.
4. **Assessment Tools & Measures:** In this space, state the tool(s) you will use to evaluate achievement of, or progress toward, that goal (e.g., a school-selected assessment, a parent survey, etc.).
5. **Attachments (if applicable):** In this space, note any attachments that you have included to illustrate the performance goal and assessments. In the case of school-developed assessments, attachments might include an actual test that your school has developed for a particular purpose, and/or a scoring tool and instructions for evaluators. Provide the attachment(s) immediately following the completed template page(s) for that performance goal. If you are still developing a particular assessment or evaluation tool, note this along with the date when it will be ready for submission, and submit it to the Mayor’s Office once it is developed.
6. **Rationale for Goal and Measures:** In this space, briefly explain (in about 2-3 sentences) why you have chosen to include that particular goal and its accompanying measures in your accountability plan. The rationale should articulate (a) why the goal is important to your school mission, and (b) why the assessments you have chosen are appropriate, useful tools for measuring performance toward that goal.
7. **Assessment Reliability and Scoring Consistency:** In this space, explain how you will demonstrate both the reliability and scoring consistency of any non-standardized assessment developed or administered by your

school, if applicable. (For suggestions and guidance in establishing reliability and scoring consistency for school-developed measures, see the “Six Step Framework for Creating Unique Learning Measures” and “Examples of Measures Created through This Framework” in the Accountability Handbook, available at

www.indy.gov. If you will not need to establish reliability and scoring consistency because you have chosen a standardized assessment, simply note “N/A” in this space.

8. **Baseline Data:** In this space, state your school’s baseline student achievement levels (such as incoming student test scores) pertaining to the particular goal, if known. If you have not yet gathered the needed data, simply indicate when you plan to gather it.

[Example response only – no tool is attached to this sample.]

Rationale for "Why is this goal important to our mission, and why is our chosen method of Goal and assessment appropriate and useful for measuring performance toward this goal?" (2-3 sentences)

Developing in students the self-knowledge and skills to plan realistically for their futures is essential to our mission. We are committed to preparing our students to succeed beyond our doors. Individual student career plans, thoughtfully revised each year with faculty counseling, will teach students to engage in self-reflection and research that will equip them to follow a plan throughout their lives – adjusting as necessary, but continuously focused on meaningful and realistic goals.

Assessment: How will we demonstrate both the reliability and scoring consistency of the assessment(s) we plan to use, if non-standardized?

Scoring Consistency: The school counselor and all teachers (who also serve as advisors to assigned groups of students) will be trained to use the tool that we have developed for evaluating student career plans. From the first set of career plans developed in 2013-2014, we will identify exemplars representing distinct levels of achievement (Excellent, Good, Fair, Needs Improvement) that should be rated accordingly, and will use these to help guide and build consistency in evaluation. Guided by the exemplars, the counselor and teachers will repeatedly evaluate a sample set of actual career plans developed in 2013-2014 (including written comments and oral feedback as well as a numeric score for each plan), comparing their scores and comments to identify variances, and revising the evaluation tool as needed to eliminate significant discrepancies. We will repeat these "practice evaluations" as needed until we are confident in the reliability and consistent usage of the evaluation tool.

Baseline Data: What is our beginning data point? Career plans from the 2016-2017 school year, which will be finalized in May 2016.
